

30 June 2010

The fund aims to provide long term growth whilst investing in a diversified portfolio of assets (including equities, fixed interest and property) in order to reduce the risk associated with being solely invested in any one asset class. These assets can be from both the UK and overseas. It aims to be less volatile than Standard Life Managed Life Fund, investing a higher proportion in assets that are traditionally less volatile (such as fixed interest assets). The fund is actively managed by our investment team, who will vary the proportions held in each asset class to try to take advantage of opportunities they have identified.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate. The Sterling value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.

Life Investment Fund

Multi-Asset Fund

Quarterly

Fund Manager	Claire Marshall
Fund Manager Start	01 May 2005
Launch Date	01 October 1994
Current Fund Size	£278.0m
