

30 June 2010

The fund aims to provide long term growth from a combination of income and capital growth by investing predominantly in index-linked stock issued by the UK government. The fund is actively managed by our investment team who may also invest in other securities, such as Sterling denominated fixed interest stocks and corporate index-linked bonds, to try to take advantage of opportunities they have identified.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.
