

30 June 2010

The fund aims to provide long term growth and is designed for investors who are looking for both exposure to global equity markets (excluding the UK) and a range of investment managers. These investment managers are selected for their investment expertise in particular markets across the world and are monitored on an ongoing basis. This selection and ongoing monitoring is currently undertaken by Wilshire Associates and is based on extensive research with the aim of blending managers with different investment styles.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate. The Sterling value of overseas assets held in these funds may rise and fall as a result of exchange rate fluctuations.

Life Fund

Manager of  
Managers Fund

Quarterly

Fund Manager	Wilshire Associates
Fund Manager start	13/07/2005
