The fund aims to provide long term growth by investing in a diversified portfolio of UK equity assets that meet our strict ethical criteria. These criteria are agreed with the Standard Life Ethical Funds Advisory Group and may be amended from time to time if considered appropriate. The fund manager will exclude companies which fail to meet the ethical criteria whilst seeking to include companies whose business activities are regarded as making a positive contribution to society.

Past performance is not a guide to future returns and future returns are not guaranteed. The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment. The fund may use derivatives to reduce risk or cost, or to generate additional capital or income at low risk. Usage of derivatives is monitored to ensure that the fund is not exposed to excessive or unintended risks. The value of assets held within the fund may rise and fall as a result of exchange rate fluctuations.
