

31 March 2019

The objective of the BT Share Fund is to aim to provide a return, before charges, broadly in line with BT shares quoted on the London Stock Exchange. The fund will hold BT shares, a small proportion of cash and will also reinvest dividends received into BT shares.

Because the fund invests in the shares of a single company, it is a riskier type of investment compared to other funds that invest in the shares of a range of companies. The BT Share Fund will rise and fall as the price of BT shares rise and fall however the investment performance you will experience from investing in the BT Share Fund will vary from the investment performance you would experience from investing in the underlying shares directly. This will be as a result of a number of differences, such as charges, tax and timing of investment.

The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in.

Pension Investment Fund

Equity Fund

	Q1 (%)	1 Year (%)	3 Years (%)	5 Years (%)
Standard Life BT Share Pension	-7.6	2.2	-43.5	-32.2

Note: The information shown relates to the past. Past performance is not a guide to the future. The value of your investment can go down as well as up. For the relevant charges on your policy please refer to your policy documentation.

#### Definitions

**Volatility Rating** - The volatility rating of a fund indicates how much the fund price might move compared to other funds. The higher the volatility rating, the less stable the fund price is likely to be. You can use this to help you decide how much risk you're comfortable taking with your investments.
